AFFAIRS IN BROOKLYN.

IT IS A QUEER FIRE DEPARTMENT. INTERESTING TESTIMONY GIVEN BEFORE THE

INVESTIGATING COMMISSION. Several witnesses appeared before the commission engaged in investigating the charges affecting the efficiency of the Fire Department at the adjourned hearing yesterday afternoon in the Municipal Build-ing. Joseph Ryan testified that at the fire in his furniture store, at Broadway and Reid-ave., recently, it was twenty-two minutes after the plarm was sent out before a stream was thrown upon the flames. He thought that the firemen worked in a careless and incompetent way in their efforts to put out the are, which proved an almost total loss.

Charles Weigert, a former member of the Fire Deariment, gave interesting evidence. He testified that when he had belonged to Truck 8, in Seigel st. Foreman Allen had assessed him \$10 for political expenses. He had paid the sum once, and had reed to pay it several times. On Election Day, in 1880, he had been met by Commissioner Ennis, who had asked him if he had voted. When he had said he had not, the Commissioner had directed him to vote for Mayor Chapin. He had refused to do this, as he was a Republican. The next day he had been ns he was a Republican. The next day he had been transferred to Engine No. 6, in High-st., where Foreman Leigh had been drunk all the time, and he had suffered from ill-treatment. He had had only three hours a day off duty and for meals, when other men had had six hours. It had been so unpleasant that he had resigned, and his resignation had not been accepted. He had been discharged soon afterward upon an allegation of neglect of duty.

The investigation will go on to-morrow.

THE COMMISSION MAKES ITS REPORT.

The commission recently appointed to appraise the value of the lands in the Navy Yard which Congress gave authority to sell to the city has presented its report to Mayor Boody. The commission is composed of Andrew J. Perry, Joseph Benjamin and Charles Small. The plot of ground comprises 27 152-1,000 neres. The commissioners report that they have care fully examined all the documents and records and have considered the restrictions to be put on the property, and value it at \$1,208,606, or about \$45,000 an acre. The city has six months in which to make the purchase. Mayor Boody expressed surprise at the report as the price of \$11,000 an acre was menthat the Government was willing to sell at that figure. He received a communication yesterday from the Navy Department saying that the report of the appraisers had been approved by Secretary Tracy. tioned in the act authorizing the sale, and he supposed

FOLLY OF A TARIFF FOR REVENUE ONLY.

The theory of Incidental Protection was discussed at the Social Economist Hall on Wednesday night by Mr. Gunton. "To pretent to furnish protection, he said, "and make it hinge upon revenue is to triffe with the subject at the expense of the most important interests of the community. If import is no justification for their continuance; for custom-house duties have always been the most objectionable form of fuxuation, and if no systematic protection to our, industries is to be afforded, they should be abolished and the revenue raised in some more commit manner."

She declared that a man named Muller, the chief spy of the Russian secret service police, and poured poison down her throat, and that there had been a political plot to kill her.

With much difficulty McDonough managed to get her to the police station in Eldridge-st., and Sergeant McAdams sent for an ambulance from Bellevue Hos pital.
